# S N 5
Electric sit to stand

THE SN5

SN5 is an electric lift height adjustable desk system that allows you to move from a sitting work desk to a standing work desk at the touch of a button.

SN5 features electronically synchronized dual motor technology that quietly adjusts the desk top from 690mm to 1170mm in 15 seconds. Available as a stand-alone desks, in back to back or side by side clusters with dividing screens. SN5 is available in thousands of finishes sizes and styles.
BURNING CALORIES

A 2013 study showed that using a standing desk caused the heart to beat an average of ten beats faster per minute than when sitting. This equates to an additional fifty calories an hour burnt. A 2012 study comparing young adults using sitting and standing desks found that standing desk users burned 20.4 additional calories per hour. Given an average of three hours of standing per day, five days per week, this would equate to burning an extra 306 to 750 calories per week.

Sit to stand well

TiMotion© 4 Pre-sets/Up-Down and LED 3 Digit display controller safely adjusts desk height with intelligent overload protection built in.

POWER socket outlet with soft wiring couplers complying to the AS/NZS61535.1:2003 connector standard are integrated into the back to back cable tray.
